Advanced PAIN MANAGEMENT CENTER Diagnosing and Treating People in Pain

Advance Pain Management was established to treat individuals who suffer from chronic disabling pain. Our medical practice offers a fully integrated and comprehensive pain management. We treat a variety of chronic pain condition including lumbar radiculopathy (sciatica), cervical radiculopathy (neck), post laminectomy syndrome (back and leg pain persisting after surgery), post hepatic neuralgia (shingles), headache, complex regional pain syndrome (re-

flex sympathetic dystrophy), cervical, thoracic and lumbar DJD/DDD, compression fractures, visceral pain (secondary to chronic pancreatitis, surgical scar, etc) and Fibromyalgia syndrome. We are dedicated to providing only the safest and most appropriate care for our patients. Our goal is to determine the correct intervention and treatment, so patient can live life pain free or with the ability to manage their pain, and that they can function and enjoy the simplest daily activities.

Benefits at Advance Pain Management Center include:

1. We take pride in our ability to schedule immediate appointment whenever possible.
2. Patient can be rest assured that our office has a professional and friendly setting.
3. Overall health improvement, calm, secure, confidence, reduce depression & anxiety
4. Alternative healing such as Meditation, Tai Chi, weight loss sequential therapy and smoking cessation.

Fill out one page referral form and fax it to us along with a summary of their pain condition. We take this referral with priority because we understand that living with chronic pain is very difficult and finding a pain physician couldn't be any easier. We hope that we can provide this service to you and we look forward to working with you.
