By JaVale McBride

I don't like Chinese dance, I love it! Chinese dance has given me so much! I love Chinese dance with OCA because it is almost like the dancers are all a family. New dancers come every semester, but we still treat them like we have known

them for years. Solo dances look very fun, but group dances help you with team work. I have been doing Chinese dance for almost five years, and I will never get tired of it.

Another reason why I love Chinese dance is because of my AMAZING teacher Chiapih Shaw. She is the nicest teacher ever! She always knows what she is doing and by that, the dances always turn out amazing! Mrs. Shaw finds ways to choreograph dances so that everyone can do them. When a student can't do something, she'd help them until they get it right. She isn't harsh at all, she is very kind and loving. Mrs. Shaw is definitely the best part of Chinese dance!

Performing is very fun. I love to see the audience's happy faces and hear their cheers. I love to actually be in the final performance. After weeks and weeks of practicing, performing is our reward. The lights and the audience really excite me. I love to do performances for charity because I fell like I can help the charity. Performances are always a joy.

Without Chinese dance, my life would be nothing. That's how much I love it.
