My name is Ying Pu. Since 1991 I have followed my dream in the United States. I love this country for its education, freedom and peace. Also, here I have realized my dream of becoming a publisher.

Since 2020, the world has changed. Covid-19 and the horrific earthquake in Turkey and Syria makes me realize that while we cannot prevent such natural disasters, war is preventable. Amidst the ongoing conflict and devastating earthquake, I feel like life is turning back. The many advances made by civilization, from technology and medicine to material comforts can be wiped out in an instant. The loss of life is the most painful and these two neighbors now share an overwhelming grief.

The United States has attracted immigrants from all over the world, with a dream of building a beautiful homeland. We don't know what will happen tomorrow, but we must live today. Each of us should take care of the earth as we take care of our own heart.
