

OFFICE OF POLITICAL STRATEGY & OUTREACH

June 28, 2024

(from Page 5)

- * Published a \$235 million funding opportunity to support manufactured housing communities.
- * Increasing loan limits for Title I Manufactured Housing.
- * Made historic investments in homebuilding and community development in Indian Country.
- * Expanded access to financing for homes with accessory dwelling units (ADUs).

I know that prices are still too high.

That's why my Administration is working to lower costs by helping build more affordable housing and banning rental housing junk fees.

Every American deserves affordable housing — yet in communities across our nation, the cost of housing is too high.

Today, I announced that @POTUS and I are investing \$85 million to remove barriers to building affordable housing, lowering rents, and buying a home.

REPRODUCTIVE RIGHTS

Second Anniversary of the Overturning of Roe v. Wade

Two years ago, the Supreme Court took away a constitutional right from the American people, denying women across the nation the right to choose. President Biden and Vice President Harris stand with the vast majority of Americans who believe that the right to choose is fundamental and that health care decisions should be

On that dark June day two years ago, the Supreme Court ripped away the Constitutional right to choose, and practically dared American women to be heard.

They didn't have a clue what they were in for.

Two years ago today, the Supreme Court took a constitutional right from the people of America — from the women of America.

Let me be clear: President Biden and I will never stop fighting for a woman's freedom to make decisions about her own body.

made between a woman and her doctor, not politicians.

INTERNATIONAL RELATIONS

Statement On the Deployment of the Multinational Security Support Mission to Haiti

On Wednesday, June 25th, President Biden issued a Statement on the Deployment of the Multinational Security Support Mission to Haiti.

Today, with strong support from the United States, Kenyan forces part of the Multinational Security Support mission arrived in Haiti, beginning an effort that will bring much needed relief to Haitians. Rampant gang violence has killed or harmed thousands of children, women, and men. Over half a million people have been displaced. Gender-based violence is widespread. As gangs hinder access to critical supplies, nearly five million Haitians now face severe food insecurity.

Haiti is an extraordinary country, and the people of Haiti deserve what people everywhere deserve: security, opportunity, and freedom. We are enriched by Haitian immigrants and Haitian Americans' contributions. The United States has and will continue providing significant security, humanitarian, and economic development assistance, including my Administration's strong

support for trade preferences with Haiti.

STATEMENTS

Statement on Moyle v. United States

On Thursday, June 27th, President Biden issued a statement on Moyle v. United States.

Today's Supreme Court order ensures that women in Idaho can access the emergency medical care they need while this case returns to the lower courts. No woman should be denied care, made to wait until she's near death, or forced to flee her home state just to receive the health care she needs. This should never happen in America. Yet, this is exactly what is happening in states across the country since the Supreme Court overturned Roe v. Wade.

My Administration is committed to defending reproductive freedom and maintains our long-standing position that women have the right to access the emergency medical care they need. Vice President Harris and I will continue to fight for a woman's right to make deeply personal health care decisions. And we will continue to fight to restore the protections of Roe v. Wade in federal law, for all women in every state across the country.

Statement on Iowa's Abortion Ban

On Friday, June 28th, President Biden issued a statement on Iowa's Abortion Ban.

Today, the Iowa Supreme Court ruled that the state's extreme and dangerous abortion ban can go into effect. Iowa is the twenty-second state with an abortion ban, imposed by Republican elected officials, that puts women's health and lives in jeopardy.

Vice President Harris and I believe that women in every state must have the right to make deeply personal decisions about their health. We will continue to call on Congress to restore the protections of Roe v. Wade in federal law and stand firm against efforts made by Republican elected officials to undermine Americans' fundamental freedoms.

Statement on Supreme Court Ruling in Loper Bright

On Friday, June 28th, Vice President Harris issued a statement on the Supreme Court Ruling in Loper Bright.

People throughout our Nation should be able to count on their government to ensure that our air and water are clean, health care is accessible and affordable, financial markets are sound, products are safe, and workers are not exploited on the job. Courts have long deferred to federal agencies who have the expertise and experience to make these ideals a reality.

Unfortunately, today's Supreme Court decision sides with special interests, reversing a critical precedent that has been on the books for four decades. President Biden and I will continue to do everything in our power to protect the American people and ensure that every person in our country can thrive.
